

Thank you for seeing my suggestion by taking your precious time.

Hi, How are you doing? Nice to meet you!

My name is Zhang Wei, and I live in Beijing, China.

I am working on finding a new job as a software developer in the IT field.

Would you be interested in building a friendship with me?

My sincere opinion is that we would be good friends.

I'd like to offer one suggestion and ask for your assistance as a friend.

You may not be aware of the situation in my country, but a legal policy restricts access to diverse social sites and useful job sites.

Also, my region is restricted from accessing both job sites and freelancing platforms.

Actually, I would like to work for a variety of companies around the world and with different jobs.

My friend told me about Upwork.com a few days ago, and he told me that he has rented accounts of this platform from people in other regions.

So, I got to know about that way and learned about the Upwork policy by my friend's help.

If possible, I'd like to get help like that from you, like as my friend.

A wide range of web and mobile application development is something that I have solid knowledge and experience with.

Moreover, as I mentioned before, I am so familiar with how to manage and use the Upwork account through the Upwork Policy so that it grows promptly.

If you don't have any experience and your account, I will guide you to make the Upwork account with your profile.

In otherwise, you've known already about the Upwork or have your own Account, then I would be willing to pay 10% of my income that would be earned by me with your account per month.

Actually, I can earn more than \$5000 ~ \$7000 each month after three months. (It would be possible after three months because actually it's not easy to get a new job with clean account).

Therefore, you will be able to earn more income each month as a result of this.

Is it something you would be interested?

Once you are interested in my suggestion, please kindly message me.
