### Profile

---

With over 7 years of experience in full-stack web development, I have achieved significant results through my expertise in cutting-edge technologies such as Blockchain, Java Spring, Php, React, Node.js. In just 1 years, I improved website performance by 20%, reduced customer complaints by 50%, and increased revenue by 10%. I have a proven track record of delivering impactful projects in a timely manner, resulting in a 60% reduction in maintenance costs and a 100% increase in user engagement.

### Work Experience

---

#### Sofka Technologies

##### Blockchain Full Stack Developer

06/2023 – 04/2025

- Solana blockchain integration resulting in a 30% increase in scalability and a 25% reduction in gas fees.
- Implemented blockchain-based authentication and authorization system, increasing security by 35% and reducing data breaches by 50%.
- Blockchain development of smart contracts on Ethereum blockchain leading to a 20% decrease in transaction times.

#### Ceiba Software

##### Senior Full Stack Developer

10/2020 – 05/2023

- Resulted in 20% reduction in development time and improved application functionality using react integrated third-party APIs.
- Utilized Redux tools to improve data management for a large-scale application, resulting in a 20% increase in productivity.
- Implemented Next.js to improve website loading speed by 50%, resulting in increased customer satisfaction.
- Optimized GraphQL queries, reducing query time by 70% and improving overall website performance.
- Utilized Apollo to implement real-time data updates, resulting in a 40% increase in website engagement.

#### Polytropic

##### Junior Full Stack Developer

11/2018 – 08/2020

- Streamlined data management and state sharing by utilizing Context API, resulting in 20% increase in productivity.
- Enhanced user interactions and reduced code complexity by implementing Hooks, resulting in 15% decrease in bug reports.
