Profile

A senior full-stack development engineer with years of experience developing enterprise-level systems and commercial projects. Proficient in Java, Spring Boot/Spring Security, Hibernate, and JPA, with practical experience in Laravel and React. Long-term responsibility for the architecture design and key module development of core systems, capable of building high-performance, highly available, and scalable backend services and frontend applications. Extensive experience in RESTful API design, database modeling, system performance optimization, and security hardening. High standards for code quality and engineering practices.

Work Experience

Bakson Ltd

Java Spring Full Stack Developer

04/2022 – 08/2025

A senior Java full-stack developer, proficient in Java, Spring (Spring Boot / Spring MVC / Spring Security), Hibernate, and JPA, with extensive experience in building high-performance, scalable enterprise applications. Familiar with backend architecture design and RESTful API development, and able to deliver stable and reliable end-to-end solutions by combining modern frontend technologies. Possesses complete software lifecycle experience, emphasizes code quality, system performance, and teamwork, and can continuously deliver value in complex business and high-concurrency scenarios.

Vtool Belgrade

Laravel | React Developer

10/2019 – 03/2022

A senior full-stack developer with 5 years of experience (Laravel and React), skilled in designing, building, and maintaining scalable web applications and RESTful APIs.

Proficient in Laravel, modern React, and backend architecture, with a strong focus on performance, security, and code quality.

Exceptionally capable of translating complex business requirements into reliable, maintainable technical solutions throughout the entire development lifecycle. Experienced in optimizing existing systems, integrating third-party services, and delivering production-ready features in fast-paced environments.

Normasoft d.o.o.

Full Stack Developer

11/2017 – 08/2019

A full-stack developer with three years of experience, proficient in building, optimizing, and maintaining scalable web applications using JavaScript, PHP, and modern CSS.

Possesses strong skills in backend architecture, frontend performance, and writing clean, maintainable code.
