Running, Swimming, Traveling

Profile

It's easy to find people promising everything and delivering almost nothing.

My major strengths are in giving realistic promises, being responsive and responsible, concentrating on business needs and communications. So I am not a pure geek thinking about technology only but, first, a making-things-happen person.

QUALIFICATIONS SUMMARY

1. Over 8 years' Web Development experience, with a proven background, successfully managing all facets of site development, from initial design and architecture to site deployment and client management.

2. Demonstrated ability to complete high-end projects in deadline-oriented environments.

3. Adept at successfully revamping Web sites to enhance user satisfaction and retention time, streamline navigation, and increase ad revenue and sales.

4. Good Practitioner of Best Practices, DevOps, SCRUM, Agile & Continuous Delivery
