Profile

Senior Full-Stack Developer (Laravel, React & Shopify) with 8 years of professional experience delivering scalable web and e-commerce solutions for international clients and high-growth businesses. Strong expertise in Laravel, React, PHP, and Shopify (themes, apps, and Shopify Plus), with a proven track record of building performant, secure, and maintainable systems. Experienced across the full development lifecycle—from architecture and development to deployment, optimization, and long-term support. Adept at translating business requirements into technical solutions while collaborating closely with designers, product teams, and stakeholders. Comfortable taking ownership, mentoring team members, and driving projects forward in fast-paced environments.

Work Experience

Bakson Ltd

Shopify Full Stack Developer

04/2022 – 08/2025

Shopify Full Stack Developer with 8 years of experience building, customizing, and scaling Shopify and Shopify Plus stores for high-growth e-commerce brands. Specialized in custom Shopify themes (Liquid), Shopify app development, third-party integrations, and performance optimization. Strong experience working with merchants, designers, and marketing teams to translate business goals into high-converting, scalable Shopify solutions.

Vtool Belgrade

Laravel | React Developer

10/2019 – 03/2022

Senior Full-Stack Developer (Laravel & React) with 5 years of experience designing, building, and maintaining scalable web applications and RESTful APIs. Strong expertise in Laravel, modern React, and backend architecture with a focus on performance, security, and clean code. Proven ability to translate complex business requirements into reliable, maintainable technical solutions across the full development lifecycle. Experienced in optimizing existing systems, integrating third-party services, and delivering production-ready features in fast-paced environments. Comfortable collaborating with cross-functional teams, mentoring junior developers, and taking ownership of technical decisions.

Normasoft d.o.o.

Full Stack Developer

11/2017 – 08/2019

Full-Stack Developer with 3 years of experience building, optimizing, and maintaining scalable web applications using JavaScript, PHP, and modern CSS. Strong background in backend architecture, frontend performance, and clean, maintainable code. Experienced in translating business requirements into robust technical solutions, leading projects end-to-end, and collaborating with cross-functional teams to deliver high-quality products.
