Knowledge of Google's Penguin 4.0 algorithm and its updates, ranked over 50+ websites #1 on Google search. Utilizes best practices for optimizing code and adheres to SOLID principles. Self-starter, great with people, responsible, creative, dependable, proficient and timely in completing projects.

Experience

Full Stack Developer
themes ninja
Feb 2021 - Present (1 year 5 months +)
ThemesNinja company was building food delivery mobile applications and my role was updating/ maintaining applications.

Key Contributions:
· Maintain released product to be bug-free and more attractive

Full Stack Developer
CoinPanel
Apr 2020 - Apr 2022 (2 years 1 month)
CoinPanel was one of the fast-growing DeFi platform and my main role was building the mobile application using React Native.
The platform was using the trending blockchain technologies including Web3 and Solidity.

Key Contributions:
· Provide high quality work and advice on blockchain area
· Extensive knowledge in hybrid tech area
· Successfully launched mobile application for customers

Frontend Developer
Yaymaker

Mar 2018 - Feb 2020 (2 years)
Yaymaker was building the Virtual Event Platform and I was responsible in building the front-end of several websites.
I built high-performance, well-structured front-end using React.js/Redux and SCSS.

Key Contributions:
· Built User Friendly/Responsive UI/UX using React.js

Full Stack Developer
Blockchain Terminal (BCT)

Dec 2016 - Jan 2018 (1 year 2 months)
BCT was DeFi plaform and provided the cryptocurrency exchange and trading service. I assisted in developing, executing strategic plans and building products. As a full-stack engineer, I managed both of front-end and back-end and released the first product successfully.

Key Achievements:
· Deep knowledge in blockchain area
· Secured application from possible cyber attacks
· Released the application to the production

Full Stack Developer
resmio GmbH

Feb 2016 - Oct 2016 (9 months)
Resmio is Restaurant Reservation SAAS platform and I began my engineering career from this company.
As a full-stack developer, I used Python/Django and React to built the platform.

Key Achievements:
· Remote working Experience
· Contributed to release the product successfully

Education

University of Science and Technology of China
Bachelor's degree, Computer Science
Jan 2011 - Dec 2015
